“Notice of Intent”

Wayne County Public Schools intends to award purchase utilizing ARRA- Race to the Top funding, as provided by US Department of Education, to **Advancing Science Serving Society** for requisition of Science Literacy Volumes.

Intent is to acquire *Atlas of Science Literacy*, Volumes 1 and 2- Mapping K-12 Science Learning. *Atlas of Science Literacy* is a two-volume collection of conceptual strand maps-and commentary on those maps- that show how students’ understanding of the ideas and skills that lead to literacy in science, mathematics and technology might develop from kindergarten through 12th grade.

Nearly 100 Science Topics Mapped... The maps in *Atlas* are built from the K-12 learning goals presented in Project 2061’s *Benchmark for Science Literacy*. *Benchmarks* was derived from the recommendations for adult science literacy proposed in Project 2061’s landmark report *Science for All Americans*. The goals included are recommended in *Benchmarks* as essential for every student to learn. The Volumes are co-published by AAAS Project 2061 and National Science Teachers Association.

This work is supported by the National Science Foundation under Grant No. ESI-0103678.
