Unless sites allow for indoor Internet access, families and students taking advantage of "Park & Learn" opportunities must stay in their vehicle while parked and return home once they are completed. At no time, should any student or family member leave their vehicle to congregate with others who are also visiting the public WiFi sites. The WiFi signal strength will vary from site to site. We encourage you to find a site that works best for your child and the mobile learning device they are using.

To find a "Park & Learn" site nearest you, call 919-735-3591.
